Squirrels Class Blog

w/c 26.4.21

Our topic is: Pirates and the Seaside

Our focus is: The Rainbow Fish

Monday	In English, we thought of an alternative Rainbow character for a story. We wrote about and illustrated our ideas. In the afternoon we did science, where we explored beach habitats. Some of us sorted animals by habitat and some of us looked at the structure of fish.
Tuesday	In maths, we began a unit on addition and subtraction. We explored addition with concrete objects. In the afternoon we did music, where we explored percussion instruments and practised tapping out rhythms. We sung seaside songs and a sea shanty!
Wednesday	In English, we explored objects from the story and wrote about a sea photo. We also read some facts about sea creatures to share with the class. In the afternoon we did PE. We are currently doing athletics and this week practised our throwing skills in the hall in lots of different ways.
Thursday	In maths, we continued our work on addition. We used pictures and numberlines to help us complete some number sentences. This lunchtime some of also took part in Football Club with Leek Town football. We will do this once every 4 weeks. It was great fun! In the afternoon we did RE. We listened to the Christian story of Noah's Ark. We created our own Noah's ark pictures with 2 of each animal.
Friday	Today we did our phonics/SPAG assessments and had 1:1 reading time. We also had time in the sensory room and on the bridge/slide area during choice time.

We also do phonics or SPAG each day, as well as short sessions focussing on keeping covid safe and promoting well-being.

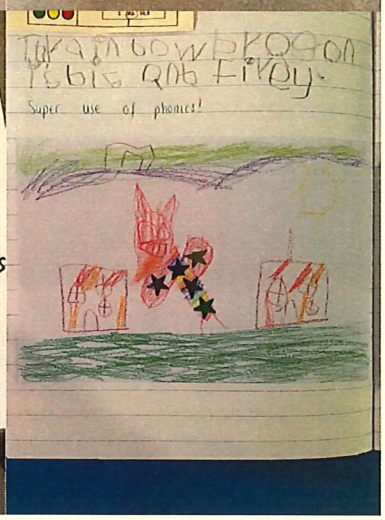
you write the words?
The world is gon to have a flood Noah is gon to get the tools it gon to rain soon oh no ark to soon it jus start to rain!
world
Noah
ark
tools



Super use of phonics!
